

The FamilyTreeDNA FamilyFinder Duke triangulation on Chromosome #7

A FamilyTreeDNA Autosomal DNA triangulation on Chromosome #7-80,499,299 indicates a common ancestor between V. Dale Cox, Margie Brawley, and Christopher B. Sims. Analysis of their family trees and known historical data yields three contemporary families of the Duke(s) surname that lived in South Carolina between 1740-1850. A summary of the historical data for the three families can be found here:

V. Dale Cox descends from Moses Duke, the son of Richard Dukes. Margie Brawley descends from Margaret Duke, the daughter of John Duke of Lancaster. Christopher Sims descends from Thomas Duke, the son of Robert Duke of Fairfield. V. Dale Cox is the 8th generation from the Unknown Duke. Margie Brawley is the 7th generation from the Unknown Duke. Christopher Sims is the 11th and 12th generation from the Unknown Duke.

Normalizing at 1840 yields Margie Brawley is V. Dale Cox's 5th cousin, once removed and Christopher Sims is V. Dale Cox's 6th cousin, 3 and 4 times removed.
